SUMMARY

UX Designer with 3+ years of experience designing end-to-end digital products, including AI-driven tools, SaaS platforms, and complex dashboard systems. Expert in 100% AI-augmented design workflows, utilizing a comprehensive suite of Generative AI tools to accelerate the double-diamond process from discovery to high-fidelity handoff. Proven ability to simplify large-scale, data-heavy workflows into intuitive, accessible, and scalable user experiences.

WORK EXPERIENCE

UI/UX Designer | HestaBit

Apr 2023 – Present

- Integrated 100% AI-driven workflows into the design lifecycle, leveraging LLMs to draft complex information architectures for AI-powered tools, reducing discovery time by ~40%.
- Designed end-to-end UX for 5+ web and mobile products including AI-powered tools, enterprise dashboards, and data-heavy reporting interfaces.
- Developed a scalable AI-enhanced component-based design system in Figma, reducing design-to-development handoff time by ~30%.
- Delivered 100+ production-ready screens for a complex AI product under tight timelines, recognized for a structured approach and design clarity.
- Collaborated daily with engineers, product managers, and business analysts in agile workflows to ship scalable designs.

Graphic Designer | AB Web Technologies

Feb 2022 – Mar 2023

- Designed digital assets and brand identity visuals using AI-assisted creative tools to ensure consistent visual language across platforms.
 - Built a strong foundation in layout, typography, and visual hierarchy, directly applied to later UX design work.
 - Partnered with marketing and content teams to produce engaging visuals that improved user engagement.
-

EDUCATION

Bachelor of Arts, Psychology

Jul 2023 – Jul 2026

Indira Gandhi National Open University

- Relevant coursework in cognitive psychology and human behavior applied to human-centered design.

UI/UX Design Certification

2021

Delhi Skill and Entrepreneurship University

- Covered user research, wireframing, prototyping, usability testing, and design systems with hands-on projects in Figma.

PROJECTS

Hunter AI-Sales Coaching Platform

- Designed role-based dashboards and AI-driven coaching workflows, translating complex performance data into actionable insights.
- Used Prompt Engineering to prototype conversational interfaces, ensuring AI-driven coaching simulations were intuitive and reduced cognitive load.
- Worked with product and engineering to ensure designs were technically feasible and aligned with business KPIs.

Helpline Club AI Voice Platform

- Designed a scalable, voice-first UX system leveraging Natural Language Processing (NLP) concepts for a diverse, non-technical user base.
- Architected the onboarding experience and information architecture to reduce user drop-off and improve AI discovery.

TECHNICAL SKILLS & AI TOOLSTACK

- **AI-Augmented Design:** Figma AI, Relume (Rapid Wireframing), Magician, Components AI, Framer AI.
- **Generative Research & Strategy:** ChatGPT-4o, Claude 3.5 Sonnet, Perplexity AI (Competitive Analysis & Persona Synthesis).
- **Visual & Asset Generation:** Midjourney, DALL-E 3, Adobe Firefly (Custom Iconography & High-Fidelity Assets).
- **UX Competencies:** User Research, Wireframing & Prototyping, Information Architecture, Usability Testing, Accessibility (WCAG), User Flows, Interaction Design.
- **UI Competencies:** Design Systems, Component Libraries, Dashboard & Data-Heavy UI Design, Typography, Responsive Web & Mobile Design.
- **Development Awareness:** Basic HTML & CSS, Developer Handoff (Locofy AI, Anima), Cross-functional Collaboration.

ACHIEVEMENTS & RECOGNITION

- **AI Workflow Optimization:** Recognized for maintaining 100% design quality while increasing output volume through the strategic use of AI-driven visual tools.
- Delivered 100+ screens for a multi-phase AI product under tight deadlines.
- Designed reusable component systems adopted across multiple product phases, enabling faster iteration and developer velocity.
